

Energy consumption

- Aeration
 - Traditional coarse MBBR-type aeration system in 3,6 m deep bassins
 - 24 m³ air/m³ waste water treated or 85 m³ air/kg SCOD removed
(0,35 kWh/m³) (1,22 kWh/kg)
- Discfilter
 - 40 µm pores, producing a SS < 15 mg/l
 - 0,013 kWh/m³ waste water treated
